Election/Restrictions

Applicant's election without traverse of Group II, claim 2 in the reply filed on June 26, 2004 is acknowledged.

Claim Rejections - 35 USC § 112

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Regarding claim 2, the recited step of calculating charge amount for information owned by the transmitted information and received information", is not clear whether it means owned by the transmission unit and by the reception unit. It is not clear what information is considered the "reference information". It is also not clear what "additional information owned by the information transmitted to said designated providing destination" means. Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Art Unit: 3622

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim 2 is rejected under 35 U.S.C. 102(e) as being anticipated by Iwagaki et al. U.S. Patent No. 6,707,999.

Regarding claim 2, Iwagaki teaches receiving information, storing information received, transmitting information to a designated destination, transmitting a reference information; calculating charge in accordance with received information etc. (see abstract and col. 5 lines 35 to col. 7 line 35).

Conclusion
